

B. F. Shantz, Night Watchman, Resigns

TIME FOR RECEIVING APPLICATIONS FOR ASSESSOR

EXTENDED TO MARCH 4th

Arbitrator to Investigate Felland's Claim Newly Appointed Aldermen Allotted to Committees

The regular meeting of the City Council was held on Tuesday evening, with all the members present. B. Roberts, returning officer, reported that Messrs. C. E. Compton and F. W. Gross had been elected by acclamation to all the vacancies on the board caused by the resignations of Ald. Chandler and Wagner.

His Worship then advised the newly elected aldermen to take their seats at the board, and welcomed them in a few appropriate words.

After the adoption of the minutes, the mayor referred to the report in The Times re the resignation of Chief Fraser, and drew the attention of the press to the fact that the council had adopted the minutes in which were embodied the words of Fraser, repudiated the statement which appeared in a recent issue of The Times to the effect that he was not getting proper backing from the council.

The resignation of B. F. Shantz, as night constable, was then read. Owing to ill health, he wished the resignation to take effect on March 1st. It was moved by Dudgeon-Emman that the resignation be accepted, and that he be allowed to leave on March 1st. Carried.

Mr. Grant, who was present, reported that the gas well was now down 1279 feet, and requested a payment of \$450 on account. In the discussion which ensued, Mr. Grant definitely assured the council that the night shift, which started work a few days ago, would be continued until the work was completed. It was moved by Olin-Emman that the account be paid. Carried.

Fire Chief Whitehead wrote, recommending that the hose reels, and other apparatus at the fire hall, be sold, and that a combination chemical and ladder truck be purchased, as the ladder at present on hand would not reach the upper stories of the high and schools. It was moved by Olin-Emman that the matter be referred to the fire and water committee to report at next meeting, but this was withdrawn in favor of a amendment introduced by Emman-Dudgeon that the letter be filed, and that all apparatus not in use be collected and stored at a building, at the agricultural grounds, and that the clerk communicate with that town to see if they require any new apparatus. Carried.

Olin-Compton reported that the police committee make temporary arrangements for night watchman until the chief of police is appointed. Carried.

J. H. Knight reported re Gohard's account for plumbing that the account was correct and recommended payment. Olin-Emman that council pass payment of \$600, being balance of contract price, and that the bill be returned to the contractor for payment. Olin-Emman that council pass payment of \$600, being balance of contract price, and that the bill be returned to the contractor for payment. Olin-Emman that council pass payment of \$600, being balance of contract price, and that the bill be returned to the contractor for payment.

B. Roberts then reported that the number of arrests made by the night constable since he resumed office were four, all charged with drunkenness, and that the amount of fines amount to \$10. Billie-Gross that the report be filed. Carried.

Ald. Dudgeon intimated that Mr. Shantz wished the investigation into the charges made by Chief Fraser and D. C. McLean to be proceeded with before he vacated the office.

His Worship thought it was amuse impossible now to hold the investigation as the office would be vacant on March 1st, and he (the mayor) cannot be in the city to-morrow, but the council could proceed with the investigation without him.

Ald. Dudgeon replied that the mayor could not shrink his responsibilities in that way and the investigation could not proceed without him, and the matter was dropped.

W. F. Crane, building inspector, reported that he desired Angus Hall safe for public assembly without props, but the constant vibration of the building might eventually make it unsafe.

A lengthy discussion followed, when it was moved by Compton-Bills that Mr. Crane get a guarantee from Mr. Angus that he would be pleased in position for either dancing or for any public meeting. Carried.

The matter of the gasoline tank was then referred to and it was moved by Billie-Gross that the clerk be instructed to present as the

city has not sufficient current. Carried.

Ald. Dudgeon reported that the electric light committee would not spend the \$180 appropriated to them for improvements at the plant, but would put in only two windows. This was adopted.

J. P. Richards then addressed the council re the motor he installed a couple of years ago at the recommendation of Mr. Taylor. It was a two horse power, but he only required a half horse to run his machine. It was assured that the cost would be only slightly higher for the larger motor, but he has been charged about four times the amount he should pay. He wanted the matter adjusted. This was moved by Emman-Gross. That the matter be referred to the electric light committee to report. Carried.

The next item on the slate was the appointment of an assessor.

It was moved by Dudgeon-Compton that Mr. Muncey be appointed assessor at \$500.

Ald. Olin objected to this as the appointment of Mr. Muncey would not meet with the approval of the largest tax payers in the city, and favored extending the date for receiving of applications.

Ald. Dudgeon argued that the roll must be completed by the end of May, and the assessor should not be hampered for time. Mr. Muncey, by his experience and would make a good assessor.

It was then moved by Olin-Bills that the time for receiving applications for assessorship be extended to Monday, March 4th, at 12 o'clock noon, and that advertisements be inserted in The Times and Free Press.

The amendment carried, those in favor being Ald. Olin, Ellis, Emman and Gross.

His Worship then took occasion to severely censure Ald. Olin for his action. He had signed the committee's report with recommendation of the appointment of Mr. Muncey, and now he had changed his mind and brought in the amendment. He would like to set him on the council board who were so consistent, and then he would know where he stood on all questions.

Ald. Olin replied that he was informed by many of the tax payers that Mr. Muncey would not be acceptable to them, and he felt that as a servant of the people who had placed him in office, he should consider their wishes.

This Worship returned that it was the opinion of the council that the endorsement and recall was not in vogue in the province or he would not retain his seat in the local legislature very long.

Ald. Billie reported that he had consulted the collector and would not recommend changing the dairy by-law. He said he was the only member of the committee, as the others had resigned, but Mayor Knox reminded him that he was a member of the committee and should have been called. Billie-Dudgeon that the report be adopted. Carried.

Ald. Ellis gave notice that he would at next meeting introduce a by-law to borrow money to cover current expenditure.

His Worship then revised the standing committees by allotting Ald. Compton to the finance committee, and as convener of the health and relief committee. Ald. Gross is the convener of the cemetery and parks committee, and is also the finance committee for consideration and report.

A petition was presented for a street at light at the corner of White and McDonald streets. Emman-Dudgeon that the clerk be instructed to reply that we have no extra power at present. Carried.

Reports of Committees

Ald. Emman reported that the account of Fowler & Co. for luncheon had been adjusted and recommended payment of same. The report was adopted.

Olin-Gross that the clerk be instructed to communicate with the petitioners for light at the corner of Stanley and Miquelon streets, and inform them that the lamp requested cannot be installed at present as the

city has not sufficient current. Carried.

Ald. Dudgeon reported that the electric light committee would not spend the \$180 appropriated to them for improvements at the plant, but would put in only two windows. This was adopted.

Town Topics

Mr. Duff, of Olds, arrived in the city on Tuesday to spend a week with his friend, Mrs. T. O. Rubra.

Mr. Burke, of Lenore, Man., arrived in the city this week to accept the management of Fowler & Co's department store.

Mrs. Lemay, of Calgary, who has been spending several days at the home of Sheriff Dickson, left for home on Tuesday morning.

Don't forget the medical contest March 8th, at Presbyterian church.

A. Stoddart, of the Stoddart Fruit Co., who has been on a pleasure trip to California, returned home on Wednesday evening.

The schools in the city now open at nine o'clock. The new regulation came into effect on Monday morning last.

Miss Hazel Anderson who visited friends at the Capital for several days last week, returned home on Saturday evening.

The annual meeting of the Hospital Aid Society will be held in the Council Chamber, on Tuesday, March 8th, at 4 o'clock. Election of officers will take place.

Mr. and Mrs. McIntyre, of Edmonton, who have been guests at the home of Dr. A. W. and Mrs. McKay, left on Tuesday morning for Calgary, where they will visit friends.

Mrs. J. W. Gardner and family, who have been visiting friends and relatives across the line for the past couple of months returned home on Monday, Mr. Gardner met them in Calgary, on Sunday.

Another business change took place in the city this week, when Mr. Peter Schmidt purchased the interest in the Wetaskiwin Pump Works from Mr. John Forster. The new firm will be known as Kelley and Schmidt.

They are also moving their place of business from the Oldfellers Block, on McDonald St. to the new store at the Banker's Grocery on Pearce St.

J. A. Grant, who let the contract for the drilling of the gas well in the city this week. The well is now down about 1300 feet, and he is so anxious to have it rushed to completion that he had added another crew and operations will continue night and day until the contract price has been reached. Mr. Grant states that Wetaskiwin has more natural gas than Medicine Hat had for several years from the first well struck there, and he expects to reach the bottom of the well in the cost of about \$5,000. The well is a good asset, as there is much more than enough gas to run the entire electric light and water departments continually, which means saving in the cost of fuel, as soon as the gas is piped to the boilers.

Ald. Dudgeon stated that a lot of criticism had been given his committee, but he felt that he was giving the city better satisfaction than the previous council, and to prove this he would issue a challenge to Ex-Ald. Angus. He would resign his seat on the council and oppose him at the time the vote was to take place on the by-law, and if he was defeated the gas well in one of the best paying propositions that the city has ever entered into, and with the present prospects for gas in very large quantities, we would not be disappointed in the very best opportunities to manufacturers and capitalists to come here and invest.

Ald. Wagner was then called upon and explained the reasons for his resignation. His private business was suffering from his absence attending committee meetings, and as Ald. Chandler had resigned it would cost no more to elect two than one.

Ald. Ellis explained that part of the heavy expenditure in connection with the sewer plant during 1910 was caused by the payment of 1910 accounts that had not been presented until as late as March. These accounts for 1910 and 1911 and charged to the 1910 accounts.

Ald. Dudgeon again took the floor and urged the importance of purchasing more machinery. A 275 h.p. engine, which would be a great saving to the city. This engine has been used three years, was owned by the city of Calgary, and was guaranteed to be as good as the day it left the shop.

RATEPAYERS' MEETING

Electric Light and Water Departments Run at a Loss. Remedy: More Machinery

ALD. DUDGEON CHALLENGES EX-ALD. ANGUS

The ratepayers' meeting in the Dreamland Theatre on Thursday evening of last week was the largest attended of any meeting ever held in the city, the large building being crowded to the doors.

Mayor Knox occupied the chair, and in his opening remarks stated that the meeting had been called to place the true condition of the city's finances before the ratepayers, as he thought the citizens did not realize that the electric light and water departments had been run at a loss for the past two or three years, and the aldermen wanted to take over the condition with the ratepayers, and receive suggestions as to the best remedy. He then referred to the auditors report, and read excerpts from same and explained some of the expenditures. The grant to the school board, by far the greatest item, had been paid for the year ending December 31st, 1911, was \$13,500. The school boards had never published a financial statement, but according to the ordinance they were obliged to do so, and the public should see that this provision is complied with. The Board of Trade had asked for a substantial grant to carry on public work, but it was felt that a grant would not be given at the present time.

Referring to the water department, His Worship pointed out that this department of the city was \$4,616 behind on the 1st of December, 1911, while the statement showed that there was a deficit in the same department of \$24,944 previously. This was doubtless caused by the system, not then being completely installed, but the remedy would be to get more water connections and possibly to slightly increase the taxation, and then the payment over a period of say three years.

Mayor Knox then referred to the conditions in the electric light department, and read the comparative figures of receipts and expenditures for several years, showing that the department had been coming out at the end of the year with a small deficit, until December 31st, 1911, when there was a deficit of \$5,822. The deficit for 1911 was \$3,022. The condition he thought showed mismanagement on the part of the previous council, and that the remedy would be to act on the advice of Mr. Watson, the present engineer, and either install another gas unit, or a steam unit, and with the boilers we it would be better to purchase steam machinery.

Ald. Dudgeon, as chairman of the electric light committee, was then called on to elaborate upon the conditions in his department. He referred to the report that the city was being supplied with an inferior grade of coal, and also that Mr. McLean had been given the contract although he was not the lowest tender. He admitted that an effort had been made to supply an inferior grade of coal to that submitted at the time, but the contract was entered into, but the committee "would not stand for it," and Mr. McLean had to screen three cars at his own expense. The report that Mr. McLean's tender was not the lowest was not true, and he read the figures of the respective tenders to prove it. He also admitted that the lights in the city were not what they should be, but they were as good as they ever would be with the present power. As long as you overload machinery you cannot get the best service. He then reviewed the conditions at the power house, and what led up to the acceptance of the resignation of Mr. Taylor. A test of the wells showed that we have abundance of water, as after a full days pumping the water was only reduced a few inches. Referring to the conditions at the power plant, the machinery was overloaded, and although there were number of applications for connections there was no power to sell. The only remedy he could suggest would be to put in more power, by either duplicating the steam or gas units. "Before you can increase your revenue, you must increase your power."

Ald. Dudgeon stated that a lot of criticism had been given his committee, but he felt that he was giving the city better satisfaction than the previous council, and to prove this he would issue a challenge to Ex-Ald. Angus. He would resign his seat on the council and oppose him at the time the vote was to take place on the by-law, and if he was defeated the gas well in one of the best paying propositions that the city has ever entered into, and with the present prospects for gas in very large quantities, we would not be disappointed in the very best opportunities to manufacturers and capitalists to come here and invest.

Ald. Wagner was then called upon and explained the reasons for his resignation. His private business was suffering from his absence attending committee meetings, and as Ald. Chandler had resigned it would cost no more to elect two than one.

Ald. Ellis explained that part of the heavy expenditure in connection with the sewer plant during 1910 was caused by the payment of 1910 accounts that had not been presented until as late as March. These accounts for 1910 and 1911 and charged to the 1910 accounts.

Ald. Dudgeon again took the floor and urged the importance of purchasing more machinery. A 275 h.p. engine, which would be a great saving to the city. This engine has been used three years, was owned by the city of Calgary, and was guaranteed to be as good as the day it left the shop.

Burdock
Blood Bitters
CURES ALL
SKIN DISEASES

Any one troubled with any itching, burning, irritating skin disease can place full reliance on Burdock Blood Bitters to effect a cure, no matter what other remedies have failed.

It always builds up the health and strength on the foundation of pure, rich blood, and in consequence the cures it makes are of a permanent and lasting nature.

Mrs. Richard Coutine, White Head, Que., writes:—"I have been bothered with salt rheum on my hands for two years, and it itched so I did not know what to do. I tried three doctors and even went to Montreal to the hospital without getting any relief. I was advised to try Burdock Blood Bitters, so I got three bottles, and before I had the second used I found a big change; now to-day I am cured."

Burdock Blood Bitters is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

For sale by Red Cross Drug Store.

The Churches

METHODIST

Next Sunday, being the first Sunday in the month, children's services will be held in the morning. Parents and friends of the children are also invited to attend. In the evening the pastor will preach; subject "Thou Art Peter and upon this rock I will build my church and the gates of hell shall not prevail against it." Miss Anderson will sing as a solo: "There is a Green Hill" by Gounod.

Special monthly offering in the Sunday school next Sunday afternoon on behalf of the new Sunday School rooms.

The No. Plus Ultra class of the Sunday School will hold a St. Patrick's social on the evening of March 15th.

The choir and a few friends held a social at the conclusion of the practice on Wednesday evening in honor of Mr. and Mrs. J. A. Kerr, who are leaving the city. Mr. and Mrs. Kerr have been faithful members of the choir for several years, and all join in wishing them success in their new home.

PRESBYTERIAN

The Presbyterian choir are giving an entertainment in the form of trip around the world, on Friday evening, March 1st Teams will leave the church at eight o'clock sharp. Everybody come and have a good time.

Come yourself and bring a friend or two to the silver medal contest.

IMMANUEL

The Women's Auxiliary of the Immanuel church, will hold a sale of home cooking at the home of Mrs. McManus, on Saturday, March 2nd, from 4 to 6 o'clock. Tea will be served.

Winnipeg, Feb. 21.—The Grand Trunk Pacific will open 27,000 home-stands west of Edmonton this coming year, and almost as many more east. Steadily all fall and winter the company has been prosecuting the work of laying steel west. Throughout the reaches of the new territory opened by the railway company some of the richest homesteads in the west has been tapped.

One of the characteristics of the year 1912 is that there are five publication days for most weekly newspapers in February. This will not happen again until 1940. All papers published on Thursday in the year 1872 had a similar number of publications in February.

Cook's Cotton Root Compound.

The great Uterine Tonic, and only safe effective Monthly Regulation on which women can depend. Sold in three degrees of strength—No. 1, 2, 3. BUTTERICK PATTERNS

The New Long Coats in the Latest Spring Fashion are here

Here you will find selected for your approval the best and most approved styles, the most fashionable and serviceable materials and the finest examples of the tailors' art.

The best American and Canadian styles have contributed to our extensive showing of these new coats for spring 1912. The number of models shown gives opportunity for individual choice in selecting. The best of the spring styles are comprised in our extensive showing of long coats at these prices. Misses' sizes, small women's and ladies' sizes. Prices **\$9.00 to 25.00**

The New Suits are Stunning

They are here, and a smart looking lot they are too, the best that money could buy and they are selling already almost on sight, the minute they come from their wrappings.

Small wonder! For prettier and more stylish suits have never been seen in a spring season. We shall be delighted to show you over the stock, to fit them on you and let you walk around and admire them. See the suits that these prices represent **\$18.50 to 23.00**

A Special Clean-up of Fifteen Suits

If we were to tell you these suits are regular \$18.00 to \$25.00 and selling for \$12.50, you could hardly believe it. Nevertheless it is only too true. But we are not giving the regular price a thought. We want to see the last of them and so have marked them at a price that will take them away. Don't be satisfied with this announcement but come and see the suits. Clearing price **\$12.50**

The New Silks are Worth Admiring

Paris, where the styles are set, says stripe silks, so the leadership of stripe silks is without question established. Just now we are showing a new and especially fine collection of these silks and we know they will soon be picked up by the women who know style elegance and quality in silks. The patterns and colorings we are showing are now extensive and without a doubt the most beautiful we have ever shown. Prices are extremely moderate. In fact these silks can be classed as exceptional values when all their loveliness is considered and then let us add, in most cases their it just enough in a piece for one dress, and the patterns cannot be duplicated.

TEMPERANCE

COLUMN

EDITED BY THE W. C. T. U.

"PAPA'S COMING!"

He swung on the gate and looked
down the street,
Awaiting the sound of familiar feet,
Then suddenly came to the sweet
child's eyes
The marvelous glory of morning shies,
For a manly form with a steady stride
Drew near to the gate that opened
wide
As the boy sprang forward and joy-
ously cried,
"Papa's coming!"

The wanted face of a little child
Looked out of the window with eyes
made wild
By the ghostly shades in the falling
light
And the glimpse of a drunk man in
the night
Cursing and reeling from side to side.
The poor boy, trembling and trying
to hide,
Clung to her mother's skirts and
cried,
"Papa's coming!"

—William Christopher Says.

"There's a road that leads to safety,
To right and truth sublime;
And another that leads to danger,
To darkness and sorrow and crime.
With liberty, life and manhood,
And all that is good at stake,
Of the two roads open before you,
Which are you going to take?"

A falsehood which dies hard is the
idea that stimulants of whatever kind
actually give strength and are neces-
sary for the maintenance of health
and vigor. Such is not the case, and
the well-worn comparison that they
are the whip and spur, and not the
corn and grass, is strictly accurate.
Anything accomplished under the in-

fluence of stimulants is repeated at
the expense of the constitution.

Only careful instruments, plain state-
ments and appeals, and courageous
example can, with faith and prayer
break down these obstacles. Wise leg-
islation can do much to give the peo-
ple control over the traffic in liquor.
This should be aimed at, energetically
by all anxious for the public good.
There will be no great advance till
the power of the liquor interest in
municipal and national politics is
broken. The victims should be pro-
tected from needless temptation.

You must take your choice between
two restrictions: either individuals
must be restricted from imposing a
nuisance on the community against
the will of the majority, or else the
majority of the community must be
sancion in deference to the interests of
individuals.—Right Hon. Joseph Cham-
berlain.

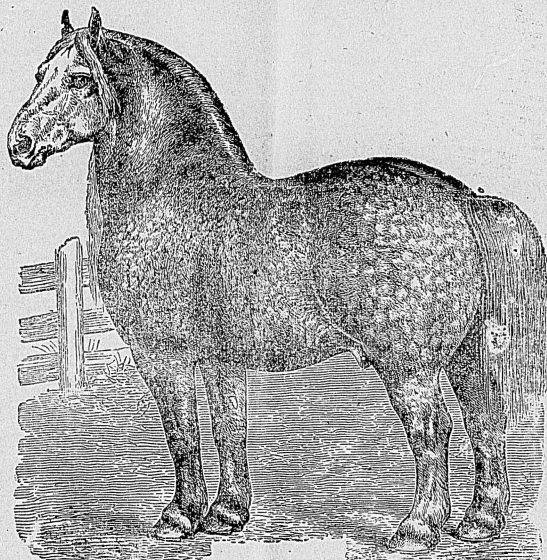

It is inconceivable to me that any
man who loves his country, and es-
pecially any Christian man, can do
other at this time than support with
all the force of his being any mea-
sure which will help to deliver us
from the almost insurmountable evil
of the drink traffic.—Dr. Campbell
Morgan.

Almighty God is not to be bought
with gold that is blighted with or-
phan's tears, that is steeped in the
mother's blood, that is cindered with
the midwife of England's sin. I would
rather see the cathedral rot on the
ground than that they should be re-
built by the colossal fortunes that
have been raised by the drinking de-
ity of the English people.—Archdeacon
Wilberforce.

The Champion Janesville Turns Furrows Like This

FOR five years Janesville Plows have beaten all comers in farmers' own contests open to any plow made in America—at Big Rock and Wheatland, Ill. The plow that wins in contests because of good work will do the same good work on your farm. Built for hard Canadian service—built in design and wonderfully strong and durable in make. Janesville are acknowledged to be the

Best Plows Ever Built!

Don't you want the plow that beats all others—the plow that's made to fit your conditions? Don't you want the plow that will work your entire farm? Let us Janesville and be in the champion class—plow perfect furrows in less time at less cost!

LET US SEND YOU THE PROOF

The Janesville Badger Plow is the greatest improvement in over fifty years. It is so perfectly correct in design that the moldboard handles the largest variety of soil perfectly, from light sandy loam to heavy clay, from extreme dry to extreme wet. It overcomes perfectly, allowing proper penetration, turning under the surface of the smooth ground, and the surface of the moldboard is so perfectly correct that it leaves the surface of the ground as smooth as a billiard table. There are many other things of the Janesville Plow that you will find out when you see it. The Janesville Plow is protected by patents. No other plow can have it. Get the Janesville and be sure.

We also make the famous Janesville Walking Plow, Riding or Walking Cultivators, Disk Cultivators, Disc Harrows, Corn Planters, Double Furrows. Address postal or letter to THE JANEVILLE MACHINE CO., 20 King Street, Winnipeg, Canada.

THE LIVE STOCK COMMISSIONER'S \$2,000,000 FOR GOVT. 'PHONES IN ALBERTA

Dr. Rutherford, live stock commissioner for the Dominion, recently stated his belief that the beef production of Canada is on the decline. "The latest figures in my possession," he said, "point to a very serious falling off in beef production in Canada, which situation is made more grave by the phenomenal increase in the consumption of meat that has taken place in the country in the last few years."

The free grazing lands of the West are disappearing before the onward march of the gasoline tractor, breaking up lands for grain growing. The West is now consuming a large proportion of the beef it raises, and exports are falling lower. At the Winnipeg stock yards only 102,000 head of cattle were received in 1911, as compared with 170,000 in 1909. Two-thirds of these cattle were consumed locally.

With the prospect of the immediate increase of population in the province of Alberta, with beef production keeping pace with the beef consumer, or are we to go on for ever increasing herds at areas and diminishing our live stock? Has the relative high home market of Canada to be dependent for its supplies of meats of all kinds upon imports?

The opinions of Dr. Rutherford on all questions pertaining to live stock are worth considering. He is a specialist and as live stock commissioner has under his immediate notice all the conditions prevailing throughout the country.

HER ONLY HOPE

The Superintendent of Annuities has received the following enquiry from an anxious correspondent who, probably had read the announcement that the agency staff of the branch had been discontinued.

"I wish to ask in it a fact that though the act could be abolished? If so I am terribly disappointed, as I have intended to some time to buy an Annuity next Summer paying the full price. I never thought that the act could be abolished, and have been using the money in other ways until I am of age to receive the first payment. I and many others have thought that the Annuities was a fine provision for poor people. Can I still buy a Government Annuity and if not, is there anything that will take its place that can be bought? I do hope that it is not true that the Annuities has been abolished, as it gave me the only hope for my old age.

We are glad to say that the Annuities System has not been abolished. In transferring the branch to the Post Office Department, under the administration of the Postmaster General, it is believed that a wider publicity will be given to the System, and that both old and young will more readily learn of the opportunity parliament has offered them of making provision for old age, the Postmasters now becoming active, while formerly they were only passive agents of the branch. The benefits will, of course, be more apparent where payments are begun at an early age, the accumulation period being longer, and the marvelous earning power of compound interest at 4 per cent, being more strikingly demonstrated; and there is always the danger if payment is deferred to a late age that unfortunate investments or expenditures may be made, and the necessary amount be not then available. There is no time like the present.

Full information in regard to the various plans on which Annuities may be purchased may be obtained at the Post Office or on application to the Superintendent of Annuities, Ottawa, to whom letters on Annuities business go free of postage.

"I wonder why Solomon was considered the wisest man?" asked Mr. Meekton's wife. Probably my dear, because he had so many wives to give him good advice.

The Horticultural Society is offering \$500 in prizes this year for gardens, trees, flower beds, lawns and cut flowers, fruits and vegetables at their second annual show, which is to be held on August 21st this year. The prize list is in the printer's hands now—Red Deer News.

Winnipeg, Feb. 21.—Two million dollars will be spent this year on telephone construction in Alberta. This is the statement made to-day by the Hon. A. L. Sifton, Premier of Alberta, and Minister of Railways and telephones, who is now in Winnipeg. The programme includes the construction of over 3,000 miles of rural lines, 500 miles of long distance lines over new routes, connecting towns already long recently constructed railways, and about 700 miles additional circuits on existing long distance routes also a number of new town changes as well as extensive additions to existing exchanges.

Winnipeg, Feb. 23.—Contracts were let by the C.P.R. today for 305 miles of new lines. These include Weyburn-Lethbridge, 100 miles to Poley, Welch & Stewart; Swift Current extension, N. W., 80 miles, to W. R. Dutton, Winnipeg; Sterling to Weyburn, 25 miles, to J. Timothy; Edmonton-Southfield branch, to J. G. Esquerra; Winnipeg, 30 miles, double track, Regina to Chaplin, 70 miles, to W. A. Dutton.

SOBRES FROM ELBOW TO FINGERS

Zam-Buk Worked a Miracle of Healing
Reverend Gentlemen Fully Corroborates

Miss Kate L. Dolliver, of Caledonia, Queens Co., N. S. says: "I must add my testimony to the value of Zam-Buk. Ulcers and sores broke out on my arm, and although I tried to cure them by using various preparations, nothing seemed to do me any good. The sores spread until from fingers to elbow was one mass of ulceration."

"I had five different doctors and faithfully carried out their instructions. I drank pint after pint of blood medicines, tried salve after salve and lotion after lotion; but it was of no avail."

"My father then took me thirty miles to see a well-known doctor. He photographed the arm and hand. This photograph was sent to a New York hospital, to the specialist. But, they said, word they could do nothing further for me, and I was in despair."

"One day a friend asked me if I had tried Zam-Buk. I said I had not, but I got a box right away. That first box did me more good than all the medicine I had tried up to that time, so I continued the treatment. Every box healed the sores more and more until, to make a long story short, Zam-Buk healed all the sores completely. Everybody in this place knows of my case and that it is Zam-Buk, alone which cured me."

Minister corroborates. Rev. W. B. M. Parker, of Caledonia, Miss Dolliver's minister, writes: "This is to certify that the testimonial of Miss Dolliver is correct as far as my knowledge goes. I have known her for a year and a half, and here certified by Zam-Buk is remarkable."

SEVERE COLD DEVELOPED INTO PNEUMONIA

DOCTOR SAID HE WOULD NOT LIVE.

Next to consumption there are more deaths from pneumonia than from any other lung trouble. There is only one way to prevent pneumonia, and that is to cure the cold just as soon as it appears. Dr. Wood's Norway Pine Syrup will do this quickly and effectively.

Mr. Hugh McLeod, Esterhazy, Sask., writes: "My little boy took a very severe cold, and he developed into pneumonia. The doctor said he would not live. I got some of your Dr. Wood's Norway Pine Syrup and he began to improve right away. He is now a strong, healthy child, and shows no signs of it coming back."

Do not be talked into buying any other Norway Pine Syrup, but insist on getting the original "Dr. Wood's." It is put up in a yellow wrapper; three pine trees the trade mark; price, 25 cents.

QUANTITY and QUANTITY

In buying goods we always consider quality better than quantity

Unscrupulous merchants think that when they can give a big pile of goods for little money that they are doing a square deal. This not our Motto.

We believe that quality is a better asset than quantity because if the quality is sacrificed the consumer is the loser and the merchant will eventually lose.

Our lines of lines of Dry Goods, Boots and Shoes, Crockery and Groceries are a quality that we can truthfully recommend and therefore solicit your patronage.

THE EDISON PHONOGRAPH

is the popular instrument for the same reason that popular music is popular—it makes the biggest hit with the biggest crowd

—not only because of its great popular repertoire; not only because of its equally noteworthy classical repertoire; not only because of the true-to-life rendering which the sapphire reproducing-point insures; not only because of the Amberol Records, or because it is the instrument on which you can make your own records at home—but, because all these things form a combination which everyone recognizes as the greatest thing in the musical world today—the Edison Phonograph.

BRITISH RECORDS FRENCH RECORDS

In addition to our regular monthly list of Edison Standard and Edison Amberol Records, we issue regularly a number of British and French Records. Be sure to get the catalogs from your dealer when you go to buy your Edison Phonograph—and ask to have the new Record Supplements mailed you free every month.

There are Edison dealers everywhere. Get complete catalogs from your dealer or from us. Edison Phonographs, \$16.50 to \$240.00. Edison Standard Records, 40c. Edison Amberol Records (play twice as long); 65c. Edison Grand Opera Records, 85c. to \$2.50.

Town Topics

Mrs. Geo. F. Carmel of Millet, was renewing acquaintances in the city this week.

Robert Hutton left on Thursday evening for Saskatoon, where he will make his home.

Mrs. Jones, of St. Thomas, N. Dal., arrived in the city on Monday to visit her daughter, Mrs. Chas. H. Boyer.

Miss Spurlin, who has been stenographer in the office of Alex. Knox for some time, has resigned, and left for her home in Edmonton on Thursday's train.

Fred. Coulege, one of the first business men in Wetaskiwin, who ran a livery barn on Pearce Street is shaking hands with his many old-time friends in the city.

The many friends of Mr. and Mrs. Chas. H. Boyer sincerely regret to learn that their only son, Jack, is lying at the point of death, and no hope is entertained for his recovery.

The regular meeting of the Scandavian Ladies' Hospital Aid will be held next Tuesday afternoon, at the home of Mrs. K. C. Berger. A cordial invitation is extended to all to attend.

Ensign Habkirk, and Mrs. Habkirk of Winnipeg, who were formerly in charge of the Salvation Army work here, have been transferred to Hamilton, Ont., where they will direct the social work of the army.

Mr. and Mrs. A. T. Mode left for Edmonton on Monday afternoon, where they will make their future home. Mr. Mode having resigned his position as clerk of the supreme court to resume legal work at the Capital. Arthur E. Popple, of the firm of Robertson, Dickson & McDonald, has been appointed as Mr. Mode's successor temporarily.

The building prospects for this city appear to be very bright. It is practically assured that there will be three large business blocks constructed, while the indications are that there will be even more houses than last year erected before next winter sets in.

Edmonton, Alta., Feb. 23.—Hans Neilson, aged 60, committed suicide by the R. N. W. M. P. barracks, stable here between 7 and 8 this morning, while all the police were at breakfast, by hanging himself to a rafter. He jumped from the hay loft breaking his neck.

Mr. Kinnaird, who has accepted a situation in the land titles office at Calgary, was in the city this week packing his household effects and straightening up his business. He and Mrs. Kinnaird left for their new home this Thursday morning. Their host of friends regret their departure, but all join in wishing them every success in their new home.

J. A. Kerr, who for several years has been the superintendent of the dry goods department in Fowler & Co's store, has severed his connection with the business and leaves on Friday for Ponoka, where he expects to eventually go into business for himself. Mr. and Mrs. Kerr will be both greatly missed in social and musical circles, and Ponoka gains two excellent citizens.

Mr. and Mrs. Arntsen wish to express their sincere thanks to the medical gentlemen and nurses of the Wetaskiwin Hospital, who assisted in performing such a skillful operation on their little daughter, for their attention to her while under their care. She has been removed to her home and is recovering rapidly.

Smith & Co. have moved their billiard and pool room into the premises recently vacated by the Wetaskiwin Hardware Co. In addition to the business he has carried on for some months, he will conduct a first class restaurant in the rooms formerly used as a furniture department. The rooms up-stairs will be remodelled, and Mr. Smith intends converting these into up-to-date commercial club rooms.

Speaking to The Saskatchewan Grain Growers convention at Regina on his return, Mr. E. Freeman, secretary of the United Farmers of Alberta told the Grain Growers that they were vastly mistaken if they thought they could succeed at Ottawa. They were just where they were years ago, and would have to do all their work over again. Eastern politicians had told him with brutal frankness that they could all ways divide the western farmers and were, therefore, not worrying about them. They had got to fight ignorance and indifference not only in the east, but in the west also.

A VERY IMPORTANT DISCOVERY

We have heard very little of Marquis' wheat up to the present, but, if all that is claimed for it is true, it may effect something close to an economic revolution in this country.

It is the result of a long process of experimentation on the part of Dr. Charles E. Saunders, the Dominion cerealist, and it was with that Senator E. Wheeler, of Kootenai, Sask., carried off the \$1,000 prize at the New York land show for the best wheat grown anywhere.

But it is not so much its quality that excites interest as the fact that it ripens fifteen days earlier than the ordinary varieties. Anyone who has lived any length of time in the West and knows the difference that fifteen days in August makes in a grain crop does not need to be informed what this signifies. Not only would it make grain-growing a less hazardous venture in the parts of the country already settled, but it would allow the extension of the area devoted to the raising of cereals several hundreds of miles to the north.

The wonders of scientific progress are by no means at an end.

See How We Grow

In looking back over the past year we have a feeling of gratitude and of satisfaction. It has been a year of growth—our school enrollment for the year numbering 372. Last year it was 298; the year previous, 242; and the first year a 150. This will give you some idea of our phenomenal growth.

At the beginning of this school year we aimed at an enrollment of 450 for the year, an increase over last year of 78. Seven months of the year have already passed and we have enrolled 150 more students than for the corresponding period of last year. We are now aiming at a registration of 600, an increase of 238 over last year.

Our typewriter equipment has kept pace with our growth in numbers. There are no schools in Western Canada that have provided as much in typewriter instruction as the Garbutt Schools. We have half the typewriters in the ten Alberta Schools.

Four years ago we started with a staff of one teacher. Today we have a staff of thirteen. Four years ago we started with one pupil. To-day the daily attendance is 275.

Now, why do we mention these evidences of our growth? Simply to show you that it will pay you to attend a live school—a school that grows, a school that enjoys the confidence of the public.
